BSc. Agronomist (Agricultural Engineer)
High Diploma in Rural Development

KEY QUALIFICATIONS:

Eng. Ashraf is currently focusing on economic development and youth empowerment, supporting hundreds of fresh agronomists who want to become successful entrepreneurs and rise with the agriculture sector in Palestine. He has more than 17 years of experience working in the agriculture sector and along its value chain, he is involved in supporting the identification of effective interventions with small farmers, to the marketing and consumer's tables. He led many interventions and gained expertise in topics like (plants inheritance, local seeds, fair trade, hydroponic farming, food processing, livelihood, cooperatives), he has a strong project management, monitoring and evaluation experience. He is the executive cofounder of the first Agribusiness Accelerator in Palestine in 2016, and has supported the management of tens entrepreneurial projects specially the ones focusing on women entrepreneurs, in the marginalized rural areas.
