Quality Management

I am a seasoned professional with a dynamic 12-year track record in managing executive projects. My expertise is fortified by an extensive array of certifications across Engineering, Management, and Communication Skills, demonstrating a comprehensive skill set. Additionally, my academic credentials include a Diploma in Human Development, enhancing my strategic planning capabilities and entrepreneurial project management acumen. My dedication to the field of engineering is further evidenced by my active membership in the Jordanian Engineers Association (JEA), under Membership No.: 28240. My commitment to professional growth and a multifaceted skill set positions me as a valuable asset to any organization in need of leadership that is both strategic and innovative.
